

# Beautifully simple

## Nokia C5 5MP

The Nokia C5 5MP has a familiar keypad that's perfect for fast, easy typing, and can be further customized with the new and free Nokia Screen Reader application for voice assistance.

The Nokia Screen Reader is an application that converts screen content into speech. Besides calling and texting, the application is helpful for browsing the Internet, accessing call lists and contacts, and managing the calendar. The reader features a simple command structure as well as a configurable control panel.
