

Experience the speed and raw power of the Nokia N900 mobile computer

Nokia N900

The Nokia N900 has evolved from Nokia's previous generation of Internet Tablets and was designed with input from the disabled community. The Nokia N900 includes these features for our customers with sensory, cognitive, or physical limitations:

- Tactile and onscreen QWERTY keyboards
- High-resolution WVGA touch screen and fast Internet connectivity with websites that look the way they would on any computer
- Camera with autofocus with assist light and two-stage capture key
- Integrated GPS, Assisted-GPS, and Cell-based receivers
- Pre-loaded Ovi Maps application
- Support for assigning images to contacts
- Vibrating alert
- Compatible with Nokia LPS-5 wireless loopset

Messaging on the N900 is easy and convenient thanks to the full physical slide-out QWERTY keyboard.

Text message or IM exchanges with friends are shown in one view and all conversations are organized as separate windows.
